

Feed me your skin  
Cover your body right  
Coming back in  
Let the blood drip from your eyes  
Let it go  
Under your weight  
Smother me your soul  
Bury me in  
Let the future take control  
Let it go

Welcome to the night life  
Welcome to the night life

Caught in your mind  
Devil close to your side  
Twisting your neck  
Make the room move side to side  
Let it go  
Under your sheet  
Nothing will ever hide  
Bending your knees  
To see the blood rain from the sky  
Let it go

Welcome to the night life  
Welcome to the night life  
Welcome to the night life

Welcome to the night life  
Welcome to the night life
