

# Don't Forget About Us

KIDZ BOP Kids

Don't forget about us  
Don't, baby, don't, baby, don't let it go  
No, baby, no, baby, don't let it go  
No, baby, no, baby, don't let it go  
My baby boy, just let it die with no goodbyes

Details don't matter, we both paid the price  
Tears in my eyes, you know sometimes  
It'd be like that, baby, yeah

Now every time I see you  
I pretend I'm fine  
When I wanna reach out to you  
But I turn and I walk and I let it ride

Baby, I must confess  
We were bigger than anything  
Remember us at our best  
And don't forget about

Late nights, dancin' in the dark  
And holdin' you inside my arms  
Boy, you'll always be in my heart and  
I can see it in your eyes, you still want it  
So don't forget about us

I'm just speaking from experience  
Nothing can compare to your first true love  
So I hope this will remind you  
When it's for real, it's forever  
So don't forget about us

Oh, they say that you're in a new relationship  
But we both know, nothing compares to  
What we had, it perseveres  
That we both can't forget it, how good we used to get it

There's only one me and you  
And how we used to shine  
No matter what you go through  
But I turn and I walk and I let it ride

So, baby, we just can't let  
Fire pass us by  
Forever we'd both regret  
And don't forget about

Late nights, dancin' in the dark  
And holdin' you inside my arms  
Boy, you'll always be in my heart and  
I can see it in your eyes, you still want it  
So don't forget about us

I'm just speaking from experience  
Nothing can compare to your first true love  
So I hope this will remind you  
When it's for real, it's forever

So don't forget about us

And if she's got your head all messed up now that's the trickery  
She'll wanna have love like you know lovin' supposed to be  
Bet she can't do like me, she'll never be MC  
Baby, don't you, don't you forget about us

Late nights, dancin' in the dark  
And holdin' you inside my arms  
Boy, you'll always be in my heart and  
I can see it in your eyes, you still want it  
So don't forget about us

I'm just speaking from experience  
Nothing can compare to your first true love
