

Feels Like Tonight

KIDZ BOP Kids

You, you got me thinking it'll be alright
You, you told me, "Come and take a look inside"
You believed me in every single lie
But I, I failed you this time

And it feels like tonight
I can't believe I'm broken inside
Can't you see that there's nothing that I wanna do
But try to make it up to you?
And it feels like tonight, tonight

I was waiting for the day you'd come around
I was chasing and nothing was all I found
From the moment you came into my life
You, you showed me what's right

And it feels like tonight
I can't believe I'm broken inside
Can't you see that there's nothing that I wanna do
But try to make it up to you?
And it feels like tonight

I never felt like this before
Just when I leave, I'm back for more
Nothing else here seems to matter, oh
In these ever changing days
You're the one thing that remains
I could stay like this forever

And it feels like tonight
I can't believe I'm broken inside
Can't you see that there's nothing that I wanna do
But try to make it up to you?
And it feels like tonight, tonight, tonight

Feels like tonight
Feels like tonight
Feels like tonight
But I'll try to make it up to you feels like tonight tonight.
