

It's Not Over

KIDZ BOP Kids

I was blown away, what could I say?
It all seemed to make sense
You're taking away everything
And I can't do without

I try to see the good in life
The good things in life are hard to find
We're blowing away, blowing away
Can we make this something good?

Well, I'll try to do to it right this time around, it's not over
Try to do it right this time around, it's not over
'Cause a part of me is standing on the ground
This love is hurting me but you're the only one, it's not over

Taken all I can take and I cannot wait
We're wasting too much time
Being strong, holding on
Can't let it bring us down

My life with you means everything
So, I won't give up that easily
Blowing away, blowing away
Can we make this something good?

Well, I'll try to do to it right this time around, it's not over
Try to do it right this time around, it's not over
'Cause a part of me is standing on the ground
This love is hurting me but you're the only one, it's not over

Can't let this get away
Let it out, let it out
Don't get caught up in yourself
Let it out

It's not over
Try to do to it right this time around, it's not over
'Cause a part of me is standing on the ground
This love is hurting me but you are the only one, it's not over

It's not over, it's not over
This love is hurting me but you're the only one, it's not over
