

Save Me

Kierra Kiki Sheard

Save me
Save me

Tantalizing thoughts in my head
Words that keep bringing up what you said
Your still small voice is the one I ignored once again

I made you a pawn in my game
Knowing you're one that I can't replace
Mirroring scars that you planned for me to escape

Change my life
This can't take me over
This can't take me over
Lord can you hear me

This can't take me over
This can't take me over
I know you warned me
But I need you
To save me, save me, save me from this fall
To save me, save me, save me from it all
Save me from myself

I'm wiping the tears from my face
Feels like the floor has been pulled from me
I've tasted the apple and now I see what shouldn't be

How do I run from the poison
Seems like sins latched onto me
I've got to get over this flesh that I'm under
This just ain't what I need, no

(2x):
Change my life
This can't take me over
This can't take me over
Lord can you hear me
