

So Long

Kierra Kiki Sheard

So long
I need to get back to you
It's been so long
Falling in a dark hole that never ends
'Cause I lost a friend
Missing You is like a road that never seems
To get you to your destination
I've been looking but I can't find You
Where did You go? What was my mistake?
I've been trying to retrace my steps
To get back to You for my life's sake
It's been so long since I heard from You
So long, what did I do?
It's been so long since I felt Your touch
So long, You avaiileth much
It's been so long since I heard from You
So long, what did I do?
It's been so long since I felt Your touch
So long, You avaiileth much
If you drop a needle in a haystack
Is it really worth trying to find
Picking through each straw because I never thought
I could be so lost without You
I've been looking but I can't find You
Where did You go? What was my mistake?
I've been trying to retrace my steps
To get back to You for my life's sake
It's been so long since I heard from You
So long, what did I do?
It's been so long since I felt Your touch
So long, You avaiileth much
It's been so long since I heard from You
So long, what did I do?
It's been so long since I felt Your touch
So long, You avaiileth much
Everyday I long for a chance to be with You again
For with failing I cry that I'm sorry for pushing You away
I would do anything to rekindle our being
I'm lost without Your presence
It's been so long and I'm wondering
Will I feel You again
It's been so long since I heard from You
So long, what did I do?
It's been so long since I felt Your touch
So long, You avaiileth much
It's been so long since I heard from You
So long, what did I do?
It's been so long since I felt Your touch
So long, You avaiileth much
It's been so long since I heard from You
So long, what did I do?
It's been so long since I felt Your touch
So long, You avaiileth much
It's been so long since I heard from You
So long, what did I do?
