

Take Me There

Kierra Kiki Sheard

Some get high, some take X
But this is higher than the next
We you are they don't understand
It's not far so take my hand

And I'll show you
Whatever, whenever, whoever, wherever, however
You should choose to be with me, come go with me

Take me there, oh
Take me there, oh-oh
Take me there, oh
Take me there, oh-oh

No more lies, I want what's real
What's my win, it's not what I feel
I'm on this spiritual expedition
Clarity, serenity
I'm addicted to this feeling
There's a place where there's no ceiling
Not a care to know all about what doesn't matter

And I'll show you
Whatever, whenever, whoever, wherever, however
You should choose to be with me, come go with me

Take me there, oh (Take me there)
Take me there, oh-oh (Woah)
Take me there, oh (Take me there, woah)
Take me there, oh-oh (Wherever you are, can you please take me?)
(Whatever, wherever, whoever, wherever, however you are)

Lord, please, wherever you are
I gotta be, where you are
No more lies, I want what's real
It may feel unfamiliar, but I'll trust you

(Take me there)
Take me there, oh (I'll leave it all behind)
Take me there, oh-oh (Any chance to walk hand and hand with you)
Take me there, oh (Ooo-woah)
Take me there, oh-oh (It's my deepest desire, yeah)
(Yes to your will, whenever you need me)

Please, take me away
