

# Cut Me Loose

Kiesza

So this is what it is  
I'm just another case  
After this war of me  
Now I can truly see  
I should know when you came to me  
I had eyes on the treasure I couldn't keep  
Got so buried in love I can hardly breathe  
Fed you all of my heart  
And you swallowed me, now I'm starving  
Stop wasting my time babe  
No more changing your mind on me

Cut me loose  
Do it for my sake  
I'll be better on my own  
I'm picking the silence  
It's time that I do what's best for me  
Cut me loose  
And try to forget me  
I'll be better on my own  
On my own  
I'll be better on my own  
On my own

How did it all begin?  
Baby I'm caving in  
Nothing I know it's clear  
Where do I go from here?  
I should know when you came to me  
I had eyes on the treasure I couldn't keep  
Got so buried in love I can hardly breathe  
Fed you all of my heart  
And you swallowed me, now I'm starving  
Stop wasting my time babe  
No more changing your mind on me

Cut me loose  
Do it for my sake  
I'll be better on my own  
I'm picking the silence  
It's time that I do what's best for me  
Cut me loose  
And try to forget me  
I'll be better on my own  
On my own

Lie, low in  
Giving my best not to fret as I go on  
Cause I don't want even a breathe or a side  
Just to hope I take nothing more, I got no more to waste  
Moving forward, there's too much to face  
But I know it's my only way

Stop wasting my time babe  
No more changing your mind on me

Cut me loose

Do it for my sake  
I'll be better on my own  
I'm picking the silence  
It's time that I do what's best for me  
Cut me loose  
And try to forget me  
I'll be better on my own  
On my own
