

Bad Day Child

Kiki Dee

It's been a bad day child
On the side of sorrow
Oooh it's hard
You can't always be so fine
You know a kind of reason
Still you try to bring it down
Wishful dreamers tell me
How can you say that you're lonely
Only children cry

Wait for tomorrow
To come and may she greet you
Through the darkness of the night
It ends up changing

It's been a bad day child
Pray for the day
But anytime you need some love
I'll try try to understand
How can you say you need some company
Only children cry
You're the teacher
Tell me the story
Be a lovely lullaby

Wait for tomorrow to come
May she greet you
The darkness of the night
Gentle changes
It's been a bad day child
Pray for the day
But anytime you need some love
I'll try try to understand
I'll try try to understand
I'll try try to understand
