

Fight The Start

Kilians

I saw her face in a window
reflecting myself in a better way
she told me to need her
just hold my hand if I wanna go

get away
all you give is just silence
I lost my bottle who told me everything I got to know

fight the start
'cause later it's too late
fight the start
fight the start
'cause later it's too late
fight the start

get away
all we share is nothing
but if I got to go then you got to know

fight the start
'cause later it's too late
you might be too late
until you might be too late
fight the start
'cause later it's too late
fight the start
