

Short Life Of Margott

Kilians

I wanna find someone who's wasting my time
I wanna find someone who's wasting my time

I wanna find someone who's wasting my time
I wanna find someone who's wasting my time

and all of you know try to get to waste all my time
and all of you know try to get to waste all my time, my time

and all of you know try to get to waste all my time
and all of you know try to get to waste all my time, my time

I wanna find someone who's wasting my time
I wanna find someone who's wasting my time

I wanna find someone who's wasting my time
I wanna find someone who's fucking my mind

and all of you know try to get to waste all my time
and all of you know try to get to waste all my time, my time

and all of you know try to get to waste all my time
and all of you know try to get to waste all my time, my time
