

Sunday

Kilians

It sounds like you're leaving me behind
And I go, around to find some time
But we don't get it back oh
No we don't get it back no

Is this the way we use to go?
Something is always left to know
But I don't know it yet oh
No we don't know it yet

I shine inside
We're so bright
We're so bright
Yeah I shine inside
We're so bright
We're so bright

You don't get me anywhere
'Cause there's something in the air oh
Seems like you're somewhere I don't know
You don't get me anywhere
'Cause there's something in the air oh
Seems like you're somewhere I don't know
We are leaving you behind behind

Is this the way I use to go?
Something is always left to know
But I don't know it yet no
No I don't know it yet no

You don't get me anywhere
There's something in the air
Seems like you're somewhere I don't know
You don't get me anywhere
There's something in the air

You don't get me anywhere
'Cause there's something in the air oh
Seems like you're somewhere I don't know
You don't get me anywhere
'Cause there's something in the air oh
Seems like you're somewhere I don't know
No I don't know oh I don't know
No I don't know

You should get me anywhere
You should get me anywhere
You should get me anywhere
