We used to talk about
the things that we
can barely look at.
We used to have some
great ideas that we
would never think of.
Two days in motion
I like to see it all and
on: I don't want to
believe it's them.

When I just like to see the sun, se it multiplies ...
With love I won't get anymore
I see it all when I fall down.

Where are we and who will win.

My heart can't see where I'm in.

I count your names and what's within.

Make up what's you And watch them.

When I just like to see the sun, see it multiplies ...
With love I won't get anymore
I see it all
when I fall down.
