

Dazzle These Nights Dead

Kill Hannah

glow in the dark stars
we're all along staged and played
and tied down you cant miss the rib cage

swings like it should
i wish you understood that
all the old ignore the old
are taking me
and they pull wings
and they're pulling wings off our backs

the old dreams no more
or only once in a while
in the back of their eyes
and their pianos are all closed
and anything makes them so sleepy

glow in the dark stars
all swing up there
and it musn't be too strong
to dazzle these nights dead
feel like we can
i wish you understood

and the old the old ignore the old
are taking me
anything 'cos we are so sleepy
and they pull wings
and they're pulling wings off our backs
pulling wings off of us

the old dreams no more or only sometimes
in the back of their eyes
and their pianos will all stay closed
and they're with us so sleepy

don't wake us
don't wake us
don't wake us
