

Mouth To Mouth

Kill Hannah

Love in the lights of an ambulance,
So blue and cold, my pulse is slow,
But your kiss will burn white fire screaming loud,

I need you mouth to mouth,
Come here I need you mouth to mouth,
Will you save my life in time,
Get over here I need you mouth to mouth,

Love like the last burned cigarette I want you on the tip of my
tongue,
Is our fate just some god's sick game,

Come to the rescue mouth to mouth,
Come here I need you mouth to mouth,
Mouth to mouth,
Will you save my life in time,
Get over here I need you mouth to mouth

Baby don't take too long,
Cause I feel just like letting go,
Save me.
Save me
Get over here
Mouth to mouth
Mouth to mouth
Get over here
