

Tokyo (Dance In The Dust)

Kill Hannah

I see you come alive when our hearts and thoughts connect,
I feel your bedroom eyes from behind your cigarette,
Finally you're here,

Tokyo,
It's in our blood,
Japanese angels you and I,
The night is young,
It's inside us,
Stay forever immortalized,
Come join us,
Dance in the dust,

I knew I loved you from before the night we met,
When the neon colors all blew up your silhouette,
Suddenly you're free,

Tokyo,
It's in our blood,
Japanese angels you and I,
The night is young,
It's inside us,
Earth and heaven both collide,
Come join us,
Dance in the dust,

T.o.k.y.o, (dance in the dust, dance in the dust)
