

Caroline

Kill It Kid

You owe nothing but to care
No sweet deliverance or bow of hair
So come on, treat me mean

You're sweet as the honey from the rock
You're pretty, you're brutal and you can't stop
So come on, treat me mean

Caroline Caroline, abuse and never treat me kind
In your room you can wrap me up and kill me and roll me home

Caroline Caroline, tonight you'll learn to be all mine
In your room you can wrap me up and kill me and roll me home

My blood will curdle but stir like cream
You're my undoing and my sweetest dream
So come on, treat me mean
My words will gutter like bowling balls
One word from you my world falls
So come on, treat me mean

Caroline Caroline, abuse and never treat me kind
In your room you can wrap me up and kill me and roll me home

Caroline Caroline, tonight you'll learn to be all mine
In your room you can wrap me up and kill me and roll me home

Now I'm flirting with the dark
Raising our glass to unsettled hearts
Well come on, treat me mean
Taste of wet sugar and a dry brain
Using your love to drive me insane
So come on, treat me mean

Caroline Caroline, abuse and never treat me kind
In your room you can wrap me up and kill me and roll me home

Caroline Caroline, tonight you'll learn to be all mine
In your room you can wrap me up and kill me and roll me home
