

# Fall From A Star

Kill Paradise

You're something special, something that I've never seen  
My eyes are cupid and they're cooking up a dream  
I want to kiss you. Do I?  
I want to seal the deal.  
Your something that I want to touch and feel.

Chorus

Fall... Don't you really want to fall from a star?  
You know that heaven is not that far from a star.  
I've bet you fallen deeper in the dark.  
Oh baby dream about it.  
Fall... Don't you really want to fall from a star?  
You know that heaven is not that far from a star.  
I've bet you fallen deeper in the dark.  
Oh baby dream about it.

You're something special, something that I've never seen  
My eyes are cupid and they're cooking up a dream  
I want to kiss you. Do I?  
I want to seal the deal.  
Your something that I want to touch and feel.  
And I heard what you said.  
I got visions in my head.  
You make me suffer, watch the brake-down  
I love it when you're red  
I can see your inner prize  
You seduce me with your eyes  
I can feel it why dont we say it,  
Love is in the sky....

You pick labels I pick tronpop  
Listen to the beat bump  
There're screaming don't stop  
Ladies shaking HEY  
Fellas on the WAY  
Any party I'll be bumping till the brake of day  
You pick labels I pick tronpop  
Listen to the beat bump  
There're screaming don't stop  
Ladies shaking HEY  
Fellas on the WAY  
Any party I'll be bumping till the brake of day

Look it how she moves man  
Look at the way she groves man that's hot  
Man I think that's hot

Just lookat the way she moves man  
Look at how she groves man that's hot  
Man I think that's hot

Just lookat the way she moves man  
Look at just how she groves man that's hot  
Man I think that's hot

Just look at the way she moves man  
Lookat the way groves man that's hot

Man I think that's hot
