

Fine without you

Kill Paradise

I can see in my own true hopes and dreams they are surreal. Captivated by my true life I want you to feel. You apologize put down your lies I do not so I sympathize. You turned your back and that was that your what we what we could of had. Oh Oh Oh.

Chrous:

Cause I'm fine without. I just wanted to let you know that you can't come and go you leave you know. You should of thought of that before like I said I am fine without you I just wanted to let you know because the world you know is so second grade typical. You come and go.

You put my heart on a string around your neck and wore it proud for all to see. I wish you were who you use to be. So I gotta be strong gotta keep movin' on. Cause your singin' my song your singin' it wrong and I'm laughing cause I'm so glad that you said goodbye. Chrous:

Cause I'm fine without. I just wanted to let you know that you can't come and go you leave you know. You should of thought of that before like I said I am fine without you I just wanted to let you know because the world you know is so second grade typical. You come and go.

(We go.) Your body a deception of lies. Doing anything with anybody for bragging rights. (And you are) when you sit down and cry you should think how (why). I've moved on and I'm proving you wrong the proof is in the lyrics so just listen to your song.
