

# Miracle

Kill Paradise

These words  
Can't be said without a melody  
Sing slow  
I hear everything you're telling me  
(I) Remember[ed] our first time  
So excited  
Sing all day  
Now I hope and pray  
I know you're listening  
You taught me everything  
Running through my blood and veins  
I feel it at every show  
And I just wanna let you know  
I believe in miracles  
Deep inside my soul  
Things get clear as we get older  
I'm finding my way  
I'm, I'm finding my own way  
Home  
Turn back time so I could tell you  
Wishing I had spend more time  
With you  
And I was such a duo  
Take my hand and don't fade away  
Don't fade away  
Your melody on Christmas Day  
You taught me everything  
And I know you're listening  
I believe in miracles  
Deep inside my soul  
Things get clear as we get older  
I'm finding my way  
I believe in miracles  
Deep inside my soul  
Things get clear as we get older  
I'm finding my way  
I'm, I'm finding my own way  
I believe in miracles  
Deep inside my soul  
Things get clear as we get older  
I'm finding my way  
I'm, I'm finding my own way  
I believe in miracles  
Deep inside my soul  
Things get clear as we get older  
I'm finding my way  
I'm, I'm finding my own way
