

Oh Lexi

Kill Paradise

Let's start this up, despite the dreams
That think we wanna stay asleep
The girl I dreamt that she would be
Is standing right in front of me

Oh Lexi, you're just so sexy
Won't you take me, take me away
Oh baby, oh Lexi
You're just the way I wanted you

Oh Lexi, you're just so sexy
Won't you take me, take me away
Oh baby, oh Lexi
You're just the way I wanted you

It's you and me, carved into the tree
A special love like this for all to see
I smell the sunshine air, summer in her hair
Butterflies feel light in the air

And you are, you're something special
I drove too far to not be with you
And I drove too far, too far
I've got sweet kisses all for you

Oh Lexi, you're just so sexy
Won't you take me, take me away
Oh baby, oh Lexi
You're just the way I wanted you

Oh Lexi, you're just so sexy
Won't you take me, take me away
Oh baby, oh Lexi
You're just the way I wanted you

Together forever, I wrote you that letter
Sent pictures and post cards to make you feel better
My heart breaks from every state to state
I know we'll make it, just be patient

And you are, you're something special
I drove too far to not be with you
And I drove too far, too far
I've got sweet kisses all for you

Oh Lexi, you're just so sexy
Won't you take me, take me away
Oh baby, oh Lexi
You're just the way I wanted you

Oh Lexi, you're just so sexy
Won't you take me, take me away
Oh baby, oh Lexi
You're just the way I wanted you

You're just the way I wanted you
You're just the way I wanted you

You're just the way I wanted you
You're just the way I wanted you

Oh Lexi, you're just so sexy
Won't you take me, take me away
Oh baby, oh Lexi
You're just the way I wanted you

Oh Lexi, you're just so sexy
Won't you take me, take me away
Oh baby, oh Lexi
You're just the way I wanted you
