

Teen Angst Unrequited Love Song

Killing Heidi

When it comes to push and shove
it's teenage unrequited love
and it makes me sick, yeah!
I've been complaining to my friends
they think I'll never hear the end
of you boy
Oh, but whats a girl to do
when she's stuck thinking of you
and you don't feel it
And when I'm lying in my bed
these crappy pictures fill my head
and it makes me sick again

If I wanted to make you feel ok
I'd say I felt the same way
can't because I don't know if it's gonna go away

You make me want you so bad
You make me want what I've never been able to have

Well, I feel like turning back
You know I've been slacking
off in school
I've been so lazy today
haven't even had the strength to say
hello to you
Well my guitar sounds so dead
it's only ringing in my head
and on my pillow
But the confusion comforts me
in a way that you can't see
and never will know

If I wanted to make it feel ok
I'd say I felt the same way
can't because I dont know if I'm gonna go away

You make me want you so bad
You make me want what I've never been able to have
You make me want this so bad
You make me want what I've never been able to have
You make me want you
You make me want what I've never been able to have

If I wanted to make it feel ok
I'd say I felt the same way
can't because I dont know if its gonna go away
