America (Extended Mix)

Killing Joke

I can survive the rat race honey Time is money and money is honey, honey My megabucks your symmetrical beauty Together we can serve the nation - yeah!

The quality of life filled us all with pride America And as I watched I just cried and cried How I love America

I will buy you rich perfumes And we will eat the finest foods A mansion in New England A silver dollar for every child Where everybody has got their price They'll sustain our way of life You and I will fly to Rio I'll make you feel like a millionaire

I can survive the rat race honey Time is money and money is honey, honey My megabucks your symmetrical beauty Together we can serve the nation - yeah!

The quality of life filled us all with pride America And as I watched I just cried and cried How I love America

West is best and might is right And with our allies - fight the good fight A first class, five star enterprise Now everybody's got to compromise My moral code's on overload Liberty still takes its toll Take a look at the losers wasting in the bars Where they cut their losses!

I can survive the rat race honey Time is money, and money is honey, honey My megabucks your symmetrical beauty Together we can serve the nation - yeah!

The quality of life filled us all with pride America And as I watched I just cried and cried How I love America

There were fireworks in the Gulf There was champagne at home - How I love America But showbiz and Hollywood still shouted out - America
