

## America

## Killing Joke

I can survive the rat race honey  
Time is money and money is honey, honey  
My megabucks your symmetrical beauty  
Together we can serve the nation - yeah!

The quality of life filled us all with pride  
America  
And as I watched I just cried and cried  
How I love America

I will buy you rich perfumes  
And we will eat the finest foods  
A mansion in New England  
A silver dollar for every child  
Where everybody has got their price  
They'll sustain our way of life  
You and I will fly to Rio  
I'll make you feel like a millionaire

I can survive the rat race honey  
Time is money and money is honey, honey  
My megabucks your symmetrical beauty  
Together we can serve the nation - yeah!

The quality of life filled us all with pride  
America  
And as I watched I just cried and cried  
How I love America

West is best and might is right  
And with our allies - fight the good fight  
A first class, five star enterprise  
Now everybody's got to compromise  
My moral code's on overload  
Liberty still takes its toll  
Take a look at the losers wasting in the bars  
Where they cut their losses!

I can survive the rat race honey  
Time is money, and money is honey, honey  
My megabucks your symmetrical beauty  
Together we can serve the nation - yeah!

The quality of life filled us all with pride  
America  
And as I watched I just cried and cried  
How I love America

There were fireworks in the Gulf  
There was champagne at home - How I love America  
But showbiz and Hollywood still shouted out - America
