

European Super State

Killing Joke

I'm a Judeo-Christian morality with a
Greco-Roman intellect
It's the way we're short-wired
It's a civilising force that demands respect
-from the Baltic to the Straits of Gibraltar
A blue flag gold star sparks a brand new empire
Ours to build, ours the choice

I'm in a European Super State
Every citizen required to debate!

Why are the proud descendants of Plato
paying off more debts accommodating NATO?
We the caretakers of democracy no longer
tolerate this hypocrisy
Baltic to the Straits of Gibraltar
A blue flag gold star sparks a brand new empire
Ours to build, ours the choice

I'm in a European Super State...

Old Europe

I'm a Judeo-Christian...
