

## Fun and Games

### Killing Joke

Twilight open and you're on your own  
Noon is shining you want fun and games  
Hear the voices inside your head  
Let's play wild - volatile

Get out my way - we go - take back  
Those ways - you know  
Fun and games come out to play  
Fun and games for unknown days

Then you join your playmates in the street  
And the nightfires burning and you're on your feet  
All the boys and girls - look in their eye  
Domestication - lost overnight  
Games get bigger all the time

Games get bigger all the time  
Because the playpens falling - stakes are high  
And the child will conquer - step by step  
Let's play wild - volatile

Fun and games come out to play  
Fun and games
