

## Here Comes the Singularity

Killing Joke

World population mass has reached the critical  
Humanity shall function as a single cell  
Machines design and clone a different race of man  
Who is the architect, who is the hidden hand?  
Kneel down and freedom's gone  
Speak out - something's wrong  
So when society breaks down in screaming insanity  
And when the sky cracks open  
Here comes the singularity  
Military industrial complex on the rise  
Let new Pearl Harbours take no-one by surprise  
One million people marched against a traitor's war  
No weapons found and no-one heard their call  
Kneel down and freedom's gone  
Speak out - something's wrong  
So when society breaks down in screaming insanity  
And when the sky cracks open  
Here comes the singularity  
Foundations and shareholders identified on list  
Big corporations dismantled brick by brick  
Investment bankers crushed like lilies under feet  
Let Baboeuf and Saint-Just pass judgement from the  
street  
Kneel down and freedom's gone  
Speak out - something's wrong  
So when society breaks down in screaming insanity  
And when the sky cracks open  
Here comes the singularity  
Kneel down and freedom's gone
