

Nervous System

Killing Joke

Everybody's looking for a life, looking for a way, no escape
Beat the other man, get your money, get your car, it's a bit of
a joke

You're walking down the streets, you see the face, you see the
instinct, start picking it up

Everybody's looking for a life to be described, no chance

Nervous system - I don't like it...

I'm getting out of this system

You better do what they say, better live life the way of an ave
rage man

Be yourself, get your car, do what you want, that's funny

Gonna get me all the portion you consigned for your perfect man

We know how you do it, how you do it, mind psychology

Nervous system - I don't like it...

I'm getting out of this system

Every year I go on holiday, every day I do the routine

9 'till 5, 9 'till 5, live around the clock cause they tell me

9 'till 5, 9 'till 5, live around the clock cause they tell ya

Everybody's looking for a life, looking for a wife, no escape

Beat the other man, get your money get your car, it's a bit of
a joke

You're walking down the streets, you see the face, you see the
instinct, start picking it up

Everybody's looking for a life to be described, no chance

Nervous system - I don't like it...
