

## Outside the Gate

### Killing Joke

In the morning as I come around, rub my eyes and look outside  
Watching, absorbing the underworld - reflections of a monstrous  
soul within

Power stations and power games - this sickness called society  
I have identified the forces behind these changes that I see

I put on my mask  
I walk down the path  
I go through the arch  
Outside the gate

I have walked bl kac lava fields of the northern hemisphere  
I have travelled the Andes range, across Pacific isles  
There is no escape in the waking world from that which is appro  
aching us fast  
Salvation is drawn from our childhoos dreams  
In lands of beauty untainted by cynicism

I put on my mask  
I walk down the path  
I go through the arch  
Outside the gate

He invokes entities vast and mindless!

We shall taste unimaginable joys a thousand times greater than  
these!  
And when the stars assume their rightful place, man liberates a  
mindless race  
Morals and laws shall be thrown aside - tap the millenial flame  
with pride  
Gaze with wonder, embrace your fate

- A madman looks outside the gate!

I put on my mask  
I walk down the path  
I go through the arch  
I close the gate
