

Trance

Killing Joke

Recognition, anamnesis, deja vu, oblique psychosis
Familiar faces, signs & sigils - crossing points, magnetic fields
Music based on cyclic collapse - calendars that mark the moon
Nocturnal emissions wax - transmissions from the Vortex room

Trance (in the fields of light)
In a trance (in the fields of light)

Wonder and amazement at the synchronized coincidence
Binding us through all the decades - predetermined providence
Souls fed by a cosmic fire
Earthly delights - all things of sense gather at this crossing point
(I'm overcome with reverence)

Trance (in the fields of light)
In a trance (in the fields of light)

Implanted upon this planet (starseed was our genesis)
Pyramids & obelisks unconsciously reminding us
Sky beings & balls of light
Myth & legend learned anew
Geometrical creation hidden from the common view

Trance (in the fields of light)
In a trance (in the fields of light)

Trance (in the fields of light)
In a trance (in the fields of light)
