

## And Embers Rise

Killswitch Engage

It's all a nothing, been dead for long  
For far too long the illusion falters  
This illusion falters, suffering  
(Suffering)

Despite the struggle, remaining helpless  
My heart can no longer  
(My heart can no longer)  
No longer be frozen  
(No longer)

Take my words  
(This truth)  
I will never  
Never leave you

It must be now, we must revolt  
Invoke the strength, turn the tide  
Stop it now, yeah

Take my words  
(This truth)  
I will never  
Never leave you

The winds of change will cleanse away  
What still remains  
Let our doubts and indecision pass away

Take my words  
(This truth)  
I will never  
Never leave you

My life for yours

Free me  
(My)  
Again  
(Life)

My life  
(From)  
For you  
(You)
