

Cut Me Loose

Killswitch Engage

Lost in thought
Recounting the cost when sanity became askew
When turning the pages of life concentrated
On killing the sorrow that tears us in two

A faded memory of what used to be
The burden and the noose
Just cut me loose
Just cut me loose
It can't be mistaken, the spirit is vacant
When hope for tomorrow is nowhere in view

Living so close to a weakness
That continues to keep you held down
Hear the sound of the voice that is screaming
What's lost is now found

A faded memory of what used to be (used to be)
The burden and the noose
Just cut me loose
Oh
Yeah
Ghosts of the past no longer torment me
I release the anguish

A faded memory (memory) of what used to be
The burden and the noose
Begging you to cut me loose
The burden and the noose
Just cut me loose

Cut me, cut me, cut me loose
