

Strength of the Mind

Killswitch Engage

Strength of the mind!

Looking back on the life that I lived
What I leave behind
Mistakes and memories serve to remind

The reflection staring back from the mirror
No longer looks like me, like me

Strength of the mind to fight what's inside
It takes strength of the mind
Before I lose control

Who can raise you from the fall and save you?
Only you!
Who can take the pain away and change you?
Only you!

A thousand miles between this never ending feeling
Just looking for something more
Searching for a release

I've seen rock bottom
and I've smashed my fists against it
Just keep telling yourself it will be alright

Who can raise you from the fall and save you?
Only you!
Who can take the pain away and change you?
Only you!

Gather all your pain and suffering
Turn them into strength and weaponry
To overcome the enemy
that's in you, that's in you
Come face to face
with a war that rages in you

Who can take the pain away?
Only you!
Only you!
Only
You!

Who can raise you from the fall and save you (and save you), and save
you?
Only you!

Strength of the mind!
Before I lose control!
