

The Return

Killswitch Engage

Alone, once more alone
As the memories weave and fade away
Separation mocks me
Frustration consumes me

Inspiration has grown cold
Even as the longing renews

Desperate, I return to you
Broken, I return to you
We circle over and over
But I still return to you

What will it take to escape you?
What will it take to escape you?
Is this what you wanted, to see me humbled?
Is this what you asked for, the final word?

Desperate, I return to you
Broken, I return to you
We circle over and over
But I still return to you

I would tear my eyes out to never see your face
But all of these scars can never be erased
Choke on your words that have left me bleeding
And may your tears, may your tears burn

We circle over and over
Still I return
I return, oh

Desperate, I return to you
Broken, I return to you
We circle over and over
But I still return to you

What will it take to escape you?
What will it take to escape?
