

# Vehemence

Killus

Breaking dawn after a long night being unable to sleep  
Screams will drive me crazy at the moment to leave  
An holocaust is coming crushing the existence of this  
place

We are ready for our names to create vehemence  
It's the howl of my shot, where is the human's pain?  
Everything is disappearing, it's the end of humanity  
Misery invades our sensibility  
Humankind falls down without any necessity  
We'll fight without rest, extermination of this place  
Apocalyptic end announced where the fuck is your god?  
Where is your god?  
It's the howl of my shot, where is the human's pain?  
Everything is disappearing, it's the end of humanity
