

World's Disease

Killus

Let's go and come into my mind
It's the way where you can spread
Your seeds under the ashes
Your skin under the ashes
Predestination is domination
It's the way that you can take
Predestination is domination
We fall with world's disease
Groan turns black in your sorrow
We'll fight like motherfuckers in the night
The devils wanna to play with us
Predestination is domination
It's the way that you can take
Predestination is domination
We fall with world's disease
Groan turns black in your suffer
We'll fight like motherfuckers in the night
The devils wanna to play with us
We'll never stop to fight with our guns
The devils wanna to play with us
Here is the world's disease
It's time to devil's creation
Here is the world's disease
It's time to devil's reflection
We'll fight like motherfuckers in the night
The devils wanna to play with us
We'll never stop to fight with our guns
The devils wanna to play with us
