

# Lookin' for a Big Night

Kim Carnes

Please don't keep us waiting  
Hurry light up the night  
Big plans in the making  
And we've got to do it up right  
He'll pick me up at seven  
I've been ready for an hour or more  
We both smile 'cause we both know  
What's in store

Lookin' for a big night  
Out on the town  
Looking for a big night  
As long as Friday rolls around  
Lookin' for a big night  
Out on the town  
Lookin' for a big night  
When every Friday rolls around

Every Monday morning  
I start out feelin' real low  
'Cause I've got for long nights  
And five long days to go  
Then I begin anticipating  
Till there's no one else around  
I think about you until my resistance  
Don't wanna be found

Lookin' for a big night  
Out on the town  
Looking for a big night  
As long as Friday rolls around  
Lookin' for a big night  
Out on the town  
Lookin' for a big night  
When every Friday rolls around

Contemplating the madness  
Keeps me in this state of mind  
It's not the good it's the badness  
That puts me over the line  
Everybody should feel it  
Everybody should know what it's like  
To lose control  
And lose your soul  
To Friday night

Lookin' for a big night  
Out on the town  
Looking for a big night  
As long as Friday rolls around  
Lookin' for a big night  
Out on the town  
Lookin' for a big night  
When every Friday rolls around
