

Road To Heaven

Kim-Lian

[Couplet]
maybe now it is the time
to break free and see what's mine
I won't hide anymore

I've been waiting way to long
drowned by gravity to strong
I'm calling
lift me up

[refr.]
come take me flying
higher give me more
it feels like riding
faster than before
on the road, the road to heaven

[couplet]
I never felt like this before
I'm not alone
I'm not ignored
so glad that I made it
I'm so done with being fed
what's in someone else's head
I'm crying
lift me up

[refr.]
come take me flying
higher give me more
it feels like riding
faster than before
on the road, the road to heaven

[Couplet]
Come with me flying
higher, reach for the stars
break through the concrete
blocking your way

don't be afraid to follow your dreams
don't let them down

[refr.]
come take me flying
higher give me more
it feels like riding
faster than before
on the road, the road to heaven
