

# Let It Be The Night

Kim Lukas

Tonight, Tonight, Tonight...  
Let it be, Let it be,  
Let it be the night  
Let it be, Let it be,

Let it be the night  
Let it be, Let it be,  
Let it be the night  
Let it be, Let it be,  
Let it be the night

Let it be the night tonight I wonder,  
Let it be the night tonight I dream of all,  
Let it be the night tonight I wonder, Awake with the sun  
And my dreams on my mind.

I dance in the light,  
Under plastic sky,  
I'm not a butterfly,  
But I want to fly.

Here tonight I feel something strange  
In my soul,  
I look all around me and I see that life  
Is not only,  
Black and white.

Let it be the night tonight I wonder,  
Let it be the night tonight I dream of all,  
Let it be the night tonight I wonder, Awake with the sun  
And my dreams on my mind.

I look to the stars,  
They smile down at me,  
All is clear and bright,  
Now it's plain to see.

Here tonight I feel something strange  
In my soul,  
I look all around me and I see that life  
Is not only,  
Black and white.

Let it be the night tonight I wonder,  
Let it be the night tonight I dream of all,  
Let it be the night tonight I wonder,  
Let it be the night tonight I dream of all,

Let it be the night tonight I wonder, Awake with the sun  
And my dreams on my mind.
