

City Girl

Kim Mitchell

Hey brown eyes you're a sight for sore eyes
You make me explosive when you come on so shy
Twist my arm and let's get sinful
You're a pretty city girl with just a hint of disgraceful
Hey little girl I think that you should be warned
I like my city girl - she keeps her meatloaf warm

Hey little girl you're a girl for the city
You got potential in your mini mini
Hey little girl you make the boys moan
With one little wink you're a party on your own
Hey little girl you're a girl for the city

Hey brown eyes I hear you give good love
Well you've got a personality that fits like a glove
Hey brown eyes I hear you give good dance
You say the wet mop boogie brings on a good romance
Hey little girl I wanna know at night where you go
Yeah I hear you're a big big trouble for the macho
