

Find The Will

Kim Mitchell

I wanna know, I can't wait
Gimme the word, please don't hesitate
You say stop, if you say go
That's alright by me, even if you say no

So save me
So save me

Time is gone and I gotta know
If you need me here I am, if you don't then let me go

Ooooh this used to be so easy
Really really woman
You've got to find the will to find love

Please please take me as I am
You've got to find the will to find love
Please please take me as I am
Really really woman
You've got to find the will to find love

Patience, patience, growin' slim
Oooh this used to be a clear thing
Clock's tickin', time rolls on
Man I'm livin' in the twilight zone

So save me
So save me

You got me nervous, and I don't wanna wait
I got to hear your say it or I got to get away
