

The Great Embrace

Kim Mitchell

she gives off lots of visual clues
she gives off lots of body language
that's how she found me...
she likes to have her rendez-vous in the shadows
she likes to have innuendos in the silhouettes
that's how i fell...
she's got the touch
she's got the grip
sh'es got those dancing kind of lips
she hit on me serious
she made me delirious
that's why i fell for the great embrace
that's why i fell for the great embrace
that's why i fell for the great embrace
she do things that do permanent damage
now i got cuts that i can't bandage
that's how she left me...
she left without a trace
i fell right to the wine and lace
that's how i fell
that's how i fell
she's got the touch
she's got the grip
she's got those dancing kind of lips
she made me delirious
she made me delirious
that's why i fell for the great embrace
