

This Dream

Kim Mitchell

where do i go when i'm feeling blue
i go to my room my room has a view
go to my feelings my feelings are true
then i have this dream baby
i dream of you
in this dream
we never-never-land and
we never never cry again
in this dream we never land and
we never ever cry again
where do i go when i'm feeling down
i go where there's music and
my spirits are found
i call on my guitar my guitar is you
girl i have this dream and
i dream of you
in this dream
we never-never-land and
we never ever cry again
in this dream baby
out of the blue will come sky and
out of the sky will come wings and
we'll never never land and
we'll never ever cry again
