

# Close Your Eyes

Kim Petras

Close your eyes  
Close your eyes  
Close your eyes

You take a drug, I take a sip  
I want your legendary kiss  
You know I got designer taste  
And your design's too good to waste  
When the beast comes out at night  
Yeah, it always wants a bite  
And I try, try to the resist  
But then the devil always wins, yeah

Time, time, time  
Time to close your eyes (close your eyes)  
Time, time, time  
Time to say goodnight (say goodnight)

I feel it coming on  
You've got nowhere to run  
There's no way you'll make it out alive  
Oh, when it's after dark  
I'm gonna eat your heart  
Don't try to fight it, just close your eyes  
Close your eyes, close your eyes, close your eyes  
Close your eyes, close your eyes, close your eyes

Go on and say, say your last words  
Sometimes the best things kinda hurt  
'Cause this is real, it's unrehearsed  
My fatal touch, you'll feel cursed, yeah

Time, time, time  
Time to close your eyes (close your eyes)  
Time, time, time  
Time to say goodnight (say goodnight)

I feel it coming on  
You've got nowhere to run  
There's no way you'll make it out alive  
Oh, when it's after dark  
I'm gonna eat your heart  
Don't try to fight it, just close your eyes  
Close your eyes, close your eyes, close your eyes  
Close your eyes (close your eyes)  
Close your eyes (close your eyes)  
Close your eyes (close your eyes)  
Close your eyes

Woo-ah!

I feel it coming on  
You've got nowhere to run  
There's no way you'll make it out alive  
Oh, when it's after dark  
I'm gonna eat your heart  
Don't try to fight it, just close your eyes

Close your eyes, close your eyes, close your eyes  
Close your eyes (close your eyes)  
Close your eyes (close your eyes)  
Close your eyes (close your eyes)  
Close your eyes

Close your eyes  
Close your eyes  
Close your eyes
