

# Shinin

Kim Petras

Woo-ah!

From the bottom you come up  
From haters to lovers  
From nada to Prada, you know you're a star  
You are shinin', lit as a diamond  
From dollar to bottle  
You know you're a star, you are

Sometimes, sometimes  
You gotta jump through fences with a barbed wire  
You wanna wave the white flag for the hard times  
You're just a little unprepared for the long ride  
But that's fine, that's fine  
Smoke Bob Marley, everything gon be alright  
Roll it side to side, time and there's no lie  
Shinin' so bright even at night

If you're lost in the down, don't give up now  
You should know just what you are

From the bottom you come up  
From haters to lovers  
From nada to Prada, you know you're a star  
You are shinin', lit as a diamond  
From dollar to bottle  
You know you're a star, you are

Keep shinin', shinin', shinin', shinin' on, on  
Keep shinin', shinin', on-on  
Keep shinin', shinin', shinin', shinin' on, on  
Keep shinin', shinin', on-on

Shine, go ahead and shine  
Don't demulate for any haters, baby, make 'em blind  
If they follow, they'll just meet you at the finish line  
You don't need no parachute if know how to fly, unless you fly  
We're out of line (Out of line)  
When I was in the club, you was on your grind (On your grind)  
Your victory is so sweet, they are so alive (So alive)  
You're killing it so hard, it should be a crime, should be a crime

If you're lost in the down, don't give up now  
You should know just what you are

From the bottom you come up  
From haters to lovers  
From nada to Prada, you know you're a star  
You are shinin', lit as a diamond  
From dollar to bottle  
You know you're a star, you are

Keep shinin', shinin', shinin', shinin' on, on  
(Keep shinin', shinin', on)  
Keep shinin', shinin', on-on  
(Keep shinin')  
Keep shinin', shinin', shinin', shinin' on, on

Keep shinin', shinin', on-on

Woo-ah!
