

# Supersonic

Kim Petras

Ah ah eh  
Ah ah eh  
Ah ah eh

Spotlight on me  
I'm gonna get where I wanna go tonight  
(Tonight, tonight, yeah)  
Taking your word  
Excitement mixed with energy and light  
(Uhh ow ow)  
It's like a bubble that's about to pop  
The energy, it's coming from inside  
(Inside, baby)  
It's like a secret that you can't explore  
You're gonna keep on trying all your life  
(Life)

It is craving for attention  
And it didn't come to play  
If you haven't recognized  
That baby it is not a game  
If you hit the time now  
Then you gonna make a hit  
If you got that supersonic  
Then it's never gonna quit

It is something too enormous to explain  
Super, supersonic  
And tonight electronic is insane  
Super, supersonic  
Who would I be with the lights that you can't see  
Super, supersonic  
Stuck inside your mind in melody  
Super, supersonic

It keeps you out  
[?]  
There's no doubt  
Attention  
It pushed you to the limit and beyond  
(Oh yeah, oh yeah, oh yeah)  
It is stuck inside your mind  
Your body  
Everywhere else you do not know  
(How can you know, know, know)  
If you are trying to push it away  
It's gonna stay  
A life long

It is craving for attention  
And it didn't come to play  
If you haven't recognized  
That baby it is not a game  
If you hit the time now  
Then you gonna make a hit  
If you got that supersonic  
Then it's never gonna quit

It is something too enormous to explain  
Super, supersonic  
And tonight electronic is insane  
Super, supersonic  
Who would I be with the lights that you can't see  
Super, supersonic  
Stuck inside your mind in melody  
Super, supersonic

Is electronic so hypnotic  
Don't try to get rid of it  
Come out is automatic  
Keeping your whole brain in synch  
Automatic, so pathetic  
[?]  
Keeping you all day ecstatic  
Supersonic can't control

It is something too enormous to explain  
Super, supersonic  
And tonight electronic is insane  
Super, supersonic  
Who would I be with the lights that you can't see  
Super, supersonic  
Stuck inside your mind in melody  
Super, supersonic....
