

Not A Love Like This

Kim Richey

You said you love me
I think you meant it at the time
Time has a way of changing
That's the nature of the crime

I want a love
That makes me light up like the sun
I want a love
That doesn't make me want to run, run

Not the kind of love
Where I wake up with a start
In the early morning hour
With a feeling in my heart

That there's a joke that I'm not getting
There's a turn I must have missed
No, not the kind that leaves me hanging
In the whirling twist, no, no, no
Not a love like this, not a love like this

I thought I knew you
These days you're anybody's guess
Take me or leave me
I'm tired of settling for less

'Cause I want a love
That makes me wanna [Incomprehensible]
'Cause I'm never known
A taste of anything so sweet

Not the kind of love
Where I wake up with a start
In the early morning hours
With a feeling in my hear

That there's a joke that I'm not getting
There's a turn I must have missed
No, not the kind that leaves me hanging
In the whirling twist, no, no, no
Not a love like this, not a love like this

'Cause I want a love
That makes me light up like the sun
Yeah, I want a love
That doesn't make me want to run, run

Not the kind of love
Where I wake up with a start
In the early morning hour
With a feeling in my heart

That there's a joke that I'm not getting
There's a turn I must have missed
No, not the kind that leaves me hanging
In the whirling twist, no, no, no
Not a love like this, not a love like this
