

## Something To Say

Kim Richey

Some days I look outside my window  
Wonder where the time goes  
Why I throw it away

One day I'll tie up all the loose ends  
Ring up my best friends  
And have something to say

When all of the pieces fall into place

Where was I when the roof caved in?  
How did I get here again?  
Good intentions gone astray

When I get my head around  
What it is that keeps me down?  
Wouldn't that be something  
Something to say?

Wouldn't that be something?  
Wouldn't that be something?

Some days I look a little deeper  
There's nothing to see here  
No reason to stay

One day I'll rise to the occasion  
Accept the invitation  
Blow the cobwebs away

When all of the pieces fall into place

Where was I when the roof caved in?  
How did I get here again?  
Good intentions gone astray

When I get my head around  
What it is that keeps me down?  
Wouldn't that be something  
Something to say?

Wouldn't that be something?  
Wouldn't that be something?  
Wouldn't that be something?
