

# The Lonesome Side Of Town

Kim Richey

There's a place I know too well  
I've been there and left to tell  
I can see that you and me are almost half way there

We're gettin' much too close  
Feels like I've seen a ghost  
Took a vow, if I made it out you'd never catch me there again

No time to wonder why  
No time for long goodbyes  
Last chance for gettin' out  
Is fading with the light

'Cause I don't want to be around  
When the night comes down  
On the lonesome side of town

You can hear each footstep fall  
Run from shadows on the wall  
Every day is just the same as one that came before

You won't find any peace  
Not here, not on these streets  
Misery loves company and there's enough to go around

No time to wonder why  
No time for long goodbyes  
Last chance for gettin' out  
Is fading with the light

'Cause I don't want to be around  
When the night comes down  
On the lonesome side of town  
On the lonesome side of town
