

Lucky Girl

Kim Sozzi

Turn down the light
Just one kiss goodnight
Turn the radio on and go
You know, I'm so, so alone

Come into my room tonight
Show me what is wrong is right
Around the world
I'm your lucky girl
Didn't you say it would be alright
I still can't sleep without the light
Around the world
I'm your lucky girl

Close the window, I'm cold
Or do you want the boys to know
How far I let you go
So slow, time goes, only 9 years ago
And now I'm feeling so low

Come into my room tonight
Show me what is wrong is right
Around the world
I'm your lucky girl
Didn't you say it would be alright
I still can't sleep without the light
Around the world
I'm your lucky girl

Turn down the bed
All the words inside my head never end
You got me feeling

Come into my room tonight
Show me what is wrong is right
Around the world
I'm your lucky girl
Didn't you say it would be alright
I still can't sleep without the light
Around the world
I'm your lucky girl
